Apr 2023 - Present (3 months) | Full-time

- I write content for various blogs and articles.
- Mentor
- Content Writer

Skills Developed: Content Creation, Content Writing, Creative Content Creation

Projects

Hotel Management System Project Using Python </>

- To create a backend of how the hotel sites actually work
- I ,along with my two team mates built a hotel management project in Python,with all databases stored at backend using SQL(Structured Query Language).
- The project focuses on demonstrating how a hotel website looks like and how it proceeds as the user enters the information.We also implemented GUI (Graphics-User Interface)to make the project engaging and attractive.

Skills Developed: Python, SQL, UI Design

Position of Responsibility

PR Team Member

- Mic.Drop(The official Public Speaking club of IIT Dhanbad)

Tagline

Just an Ambitious individual who works to 1000% of her potential to make every assigned to me a great success.
